

PRIVATE ORDER DUST CONTROL ON PUBLIC COUNTY ROADS

At the request of a resident, the Washtenaw County Road Commission (WCRC) will apply private order dust control on unpaved public county roads for a nominal fee.

Orders are to be submitted on the attached order form, including a simple map of the road segment location and payment (check). Multiple applications on a road segment can be ordered and paid for at one time.

The WCRC will retain the submitted order form and location map on file. If, at a later date, an additional application of dust control is desired, a resident can simply mail in a check with a note of the location.

If more than one resident on the same road segment is interested in private order dust control, residents may collectively place an order. This scenario works particularly well for adjoining properties. In such cases, the WCRC requests a single check from one of the participating residents.

The completed order form, location map, and payment (check) should be mailed to or dropped off at the WCRC offices, 555 North Zeeb Road, Ann Arbor, 48103.

2020 FEE SCHEDULE

For townships using <u>brine</u> :	
Minimum order of 300 feet:	\$213.35
Each additional 100 feet:	\$ 8.66

Residents are asked to keep the following in mind when placing an order:

Orders received by noon on Tuesday will typically be scheduled for the following Thursday. However, weather and crew availability may alter the application date.

The WCRC cannot guarantee that any private order for dust control will not conflict with grading, dust control or other work in connection with township agreements.
